

Another Chilling Experience for the Master Food Preservers.

Chickens 1 - MFP's 0

On Monday November 13, 2006 ten MFPs successfully repackaged, for the third time, 2400 lbs. of cold, hard, chicken for the Food Bank in record breaking time again! You probably are wondering why with a record time in place the Chickens have one on us. Linda Brenton suffered the first casualty....she was attacked by a resistive chicken! For details see Linda. It wasn't a pretty sight. Thanks to all who helped continue to perfect our re-packaging system. Bring on the next 2400 lbs.

(Thanks to Kathy Pearson for the article and for the photos.)
