

# Mother Lode 49ers' Scotty's Garden

Twenty-four club members of the Mother Lode 49er's participated on their Scotty's Garden project. The garden is planted at the El Dorado County Fairgrounds next to the Sheep Barn, adjacent to the club's Adopt A Spot. The club believes that their garden will receive a greater exposure being in this location. The planting materials were donated by Carlan Meyer, Scott Huston, Jeff Brunett (Wayne's Locksmith), Terry Piland (Piland Electric) and Nancy Steckley. The club also donated some funding for the garden display. They installed a sprinkler system to ensure year-round irrigation. Two tile markers have also been placed in the garden. (See photo)
