

GEOCACHING PROJECT

This county-wide project will be held on the 2nd Saturday of each month.

The first meeting will be held at 10 am at 5724 Dolomite Drive in El Dorado on September 12, 2009.

Following meeting sites will vary depending on target geocache locations in El Dorado County.

Although it is helpful, participants are not required to bring a GPS unit.

Participants will learn the basics of placing, maintaining and locating caches.

Project Leader:
Paul Gudeman
